

Program Funnel Checklist

Here is a checklist that will have you confidently set up your Program Funnel.

It's a lot of steps

This may seem like a lot of steps, but many steps repeat... for example, choosing your font will allow you to check off 5 boxes below.

Save this Checklist on Your Computer

To avoid losing all your completed steps... Save this document in a safe space on your computer.

So, you can keep coming back to this and checking off more boxes... until your funnel is DONE!

How to Get Support

The Program Funnel Checklist Guide is your guide to walk you through this checklist.

The Guides linked in the checklist below will also help.

And, the Get Support Button in your Thrive Machine is a portal to 24/7 chat. If you're not getting your question answered you can ask for a loom video... and even hop on a Zoom call so you can screen share.

All right! Let's begin!
